

LC1 - INTRO

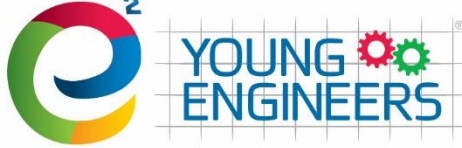

e² Young Engineers

Join our new after-school enrichment program – **LEGO® CHALLENGE**. Our sessions provide theoretical knowledge and practical implementation in Science, Technology, Engineering, Arts and Mathematics (**STEAM**) basics through the use of motorized LEGO® bricks. We are proud to introduce you to our fun and fulfilling methods of teaching and learning.

For more info, visit our website: www.youngengineers.net . Register your child at <http://www.sandiegocnc.e2youngengineers.com/enrolment/>
